Notes

- All deadlines are Central Standard Time (CST).
- Double trucks are due 24 hours in advance of above deadlines.
- Unique ads are due 24 hours in advance of space commitments listed above.
- Contact your Star Tribune sales representative.

If You Build Your Ad

- Page ready files are considered ready to publish “as is” and must comply with mechanical requirements (see page 3). Star Tribune reserves the right to reduce the ad to fit the space ordered.
- PDF format preferred.
- CMYK color – 300 dpi.
- Embedded fonts.
- Electronic files submitted through addesk.startribune.com.

For all products, ad orders are non-cancelable after the space deadline and the Advertiser/Agency will be charged for the space regardless of whether the advertisement is published.

ROP MECHANICAL REQUIREMENTS

ROP PRODUCTION INFO/COLOR MECHANICAL REQUIREMENTS

The following requirements apply to Star Tribune’s newsprint products – ROP, TCV and Sunday Comics. Contact your sales representative for mechanical requirements for our other products.

REPRODUCTION REQUIREMENTS

- Printing process is photo composition, web offset.
- The minimum font size recommended is 7 point for sans-serif type or 12 point for serif type (black type on white background or reversed)
- Type smaller than 12 points should not be reversed on a 4 color background
- Type smaller than 10 points should not be reversed on a single color background
- If reversing type from 4 color it is recommended that a bold font is used
- Serif and fine script type below 12 points should not be screened on any color
- For contrast and readability reverse type should not be placed on screens below 50%
- Borders smaller than 4 points should be built as a single color
- Surprinted type should be solid black and contrasted against 40% screen or less
- Reverse type should be white type on a 50% screen or higher – avoid serif fonts
- Total Area Coverage (TAC): The darkest 4-color area should not exceed 240%

RECOMMENDED SCREEN RANGES

- Images should be designed to compensate for a 28-30% dot gain.
- Reverse Color 50% to 100%.
- Overprint 10% to 40%.
- Minimum size highlight dot: Cyan 4%, Magenta 2%, Yellow 2%, Black 0%.
- Color should be gray balanced.

LINE SCREEN FOR ROP

85 line screen

ROP DEPTH REQUIREMENTS

Minimum depth is one inch on one column width.

Advertisements can be ordered in half-inch increments.

Ads exceeding 18 inches in depth are set to occupy full depth and are charged at full depth.

ELECTRONIC SUBMISSION OF COMPLETED ADS AND AD MATERIALS

We request that all electronic files be submitted to the Star Tribune through our primary ad delivery system, AdDesk. Submissions of ad materials via e-mail or disk are not recommended. AdDesk is a free, secure and user-friendly system that we encourage all advertisers to use. Go online to: <http://addesk.startribune.com> for detailed instructions on how to format your ad for submission.

PREFERRED FORMATS FOR COMPLETED ADS PDFs

We ask that our customers submit Adobe Acrobat PDFs of their ads. All PDFs must be created through Adobe Distiller and, if the ad is a color ad, created in CMYK color and not RGB color. All fonts must be embedded.

IMAGES AND AD COMPONENTS

Images and ad components should be submitted in TIFF, EPS, JPEG or BMP (Bitmapped) formats. Color images need to be CMYK. Black and white need to be grayscale.

RESOLUTION

Black and White – 170 dpi at 100%

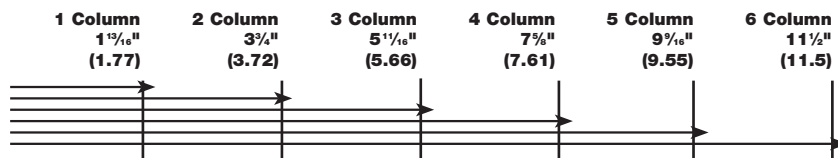

Four Color – 200 dpi at 100%

Line Art – 800 to 1200 dpi at 100%

TECHNICAL QUESTIONS

For further information, go online to: <http://addesk.startribune.com>, then click on Ad Makeup, then click on Ad File Preparation, or contact your sales rep or Graphic Services at 612-673-7038.

STAR TRIBUNE STANDARD COLUMN MEASUREMENTS

Double Truck = 24" Wide – There are four suggested double truck sizes: 13 x full, 13 x 18", 13 x 14" & 13 x 10.5".

CLASSIFIED MECHANICAL REQUIREMENTS

PRODUCTION INFORMATION COLOR MECHANICAL REQUIREMENTS

The following requirements apply to Star Tribune's Classified newsprint products. Contact your sales representative for mechanical requirements for our other products.

STARTRIBUNE.COM AND VITA.MN MECHANICAL REQUIREMENTS

GENERAL REQUIREMENTS FOR ALL DISPLAY ADS

- All banners with a white background must have a non-white border of 1 pixel
- Banners may loop 3 times or animate for 30 seconds, whichever is less
- Flash ad should be published to Flash Player Version 9
- Flash ads must have the clickTag code embedded in the swf

```
On (release) {
  getURL(clickTag,"_blank");
}
```
- Click-through URLs may not exceed 512 characters
- Audio must be user initiated by click and requires an on/off button. Ad will load with audio turned off. Expanding panels are the exception – audio may play after a 2 second delay when expanded, audio must stop when expanding panel is closed.
- Companies supplying creative should submit creative 3 business days prior to placement
- We accept customer provided ads (3rd party tag) from AdInterax, PointRoll, EyeBlaster, and other vendors compliant to our guidelines
- Click analytics for 3rd party tag served ads must be collected by the 3rd party tag server. We will provide reporting on impressions delivered at the end of the campaign
- Creative must not auto-download additional media, spawn additional ads, or ask the user to download plug-ins
- Star Tribune reserves the right to approve or decline an ad campaign if delivery of site content or user experience is compromised. All ad materials must be compliant with Star Tribune ad acceptability standards and guidelines

Solo Offers and Solo FYI Emails

Provide an HTML document (extension .html or .htm) with code expanding to 640 pixels. If you are unable to provide an HTML coded file, provide a layered design file and we will convert it into HTML for you. See your sales representative for a guide on HTML tips and tricks.

HTML Specifications:

- Images should be no more than 50% of the total email
- Total file size should not exceed 75k
- Follow standard email-client-friendly HTML practices, including inline CSS styles
- Use descriptive tags for all images, specify width and height
- Use standard fonts such as Arial or Times. Special fonts should be limited.
- Avoid nesting tables
- Avoid the below in subject lines or body content as they are common for triggers for spam filters
